Essay Reviews

5 On the importance of information-acquiring systems in plant–plant interactions
P. J. APHALO & C. L. BALLARÉ

15 Can we determine the intrinsic dynamics of real plant populations?
R. COUSENS

21 Problems with ratio analysis in nutritional studies
D. RAUBENHEIMER

Original articles

30 Ecophysiology, range contraction and survival of a geographically restricted African dung beetle (Coleoptera: Scarabaeidae)
S. L. CHOWN, C. H. SCHOLTZ, C. J. KLOK, F. J. JOUBERT & K. S. COLES

40 Daily expenditure of tufted ducks: a comparison between indirect calorimetry, doubly labelled water and heart rate
R. M. BEVAN, J. R. SPEAKMAN & P. J. BUTLER

48 How a long tail and changes in mass and wing shape affect the cost for flight in animals
U. M. NORBERG

55 Relationships between first flowering date and temperature in the flora of a locality in central England
A. H. FITTER, R. S. R. FITTER, I. T. B. HARRIS & M. H. WILLIAMSON

61 An assembly rule in the ground and herbaceous strata of a New Zealand rain forest
J. BASTOW WILSON, R. B. ALLEN & W. G. LEE

65 Leaf carbon and nutrient assimilation and conservation in species of differing successional status in an oligotrophic Amazonian forest
P. B. REICH, D. S. ELLSWORTH & C. UHL

77 Growth responses to salinity in relation to distribution of two mangrove species, *Sonneratia alba* and *S. lanceolata*, in northern Australia
M. C. BALL & S. M. PIDSLEY

86 Nitrogen and water requirements of C_3 plants grown at glacial to present carbon dioxide concentrations
H. W. POLLEY, H. B. JOHNSON & H. S. MAYEUX

97 Interactions between *Rumex* spp., herbivores and a rust fungus: the effect of *Uromyces rumicis* infection on leaf nutritional quality
P. E. HATCHER, N. D. PAUL, P. G. AYRES & J. B. WHITTAKER

106 Reproductive decisions in bumble-bee colonies: the influence of worker mortality in *Bombus terrestris* (Hymenoptera, Apidae)
J. A. SHYKOFF & C. B. MÜLLER

113 Adaptive variation in host-selection behaviour of *Asobara tabida*, a parasitoid of Drosophila larvae
A. R. KRAAIJEVELD, B. NOWEEE & R. W. NAJEM

119 Effect of soil depth on seedling emergence in tropical soil seed-bank investigations
J . W. DALLING, M. D. SWAINE & N. C. GARWOOD

Technical Reports

122 Maximum likelihood estimation of genetic parameters in life-history studies using the 'Animal Model'
S. A. KNOTT, R. M. SIBLY, R. H. SMITH & H. MØLLER

127 A new method for characterizing surface roughness and available space in biological systems
G. D. SANSON, R. STOLK & B. J. DOWNES

Forum

136 Why do tropical poikilothermic organisms tend to have higher threshold temperatures for development than temperate ones?
D. L. TRUDGILL

138 Instructions to Contributors

Volume 9 Number 2 1995

143 Energy export and offspring growth during lactation in Cotton Rats (*Sigmodon hispidus*)
G. L. ROGOWITZ & P. A. McCLURE

151 Validation of heart rate and doubly labelled water as measures of metabolic rate during swimming in California Sea Lions
I. L. BOYD, A. J. WOAKES, P. J. BUTLER, R. W. DAVIS & T. M. WILLIAMS

161 Food delivery to nestling Storm Petrels: limitation or regulation?
M. BOLTON

171 Load-lifting capacities of three species of yellowjackets (*Vespula*) foraging on honey-bee corpses
J. R. COELHO & J. HOAGLAND

175 Influence of food quantity and lead exposure on maturation in *Daphnia magna*; evidence for a trade-off mechanism
E. L. ENSERINK, M. J. J. KERKHOFS, C. A. M. BALTUS & J. H. KOEMAN

186 Experimental studies of Coral Snake mimicry: generalized avoidance of ringed snake patterns by free-ranging avian predators
E. D. BRODIE III & F. J. JANZEN

191 The cost of exploitation competition in *Callosobruchus* beetles
N. COLEGRAVE

197 Seed fate in a tropical mistletoe: the importance of host twig size
S. SARGENT

205 The architecture and allometry of mangrove saplings
I. M. TURNER, W. K. GONG, J. E. ONG, J. S. BUJANG & T. KOHYAMA

213 Physiological responses to soil moisture stress in two Amazonian gap-invader species
M. B. DIAS-FILHO & T. E. DAWSON

222 A comparison of light quality and quantity effects on the growth and steady-state and dynamic photosynthetic characteristics of three tropical tree species
C. TINOCO-OJANGUREN & R. W. PEARCY

231 Nitrogen and phosphorus tissue concentrations in 41 wetland plants: a comparison across habitats and functional groups
C. L. McJANNET, P. A. KEDDY & F. R. PICK

239 Regulation of growth and photosynthetic performance in *Elodea canadensis* in response to inorganic nitrogen
T. V. MADSEN & A. BAATTRUP-PEDERSEN

248 Relationships between seed reserves, seedling growth and mycorrhizal responses in 14 related shrubs (Rosidae) from a low-nutrient environment
N. ALLSOPP & W. D. STOCK

255 Optimal diet selection by a generalist grazing herbivore
J. A. NEWMAN, A. J. PARSONS, J. H. M. THORNLEY, P. D. PENNING & J. R. KREBS

269 A comparative study of the fracture properties of five grasses
W. WRIGHT & A. W. ILLIUS

279 Foliar defences and habitat adversity of three woody plant communities in Singapore
I. M. TURNER

285 Population density, body mass and niche overlap in Australian birds
P. COTGREAVE

290 A new, improved growth model for brown trout, *Salmo trutta*
J. M. ELLIOTT, M. A. HURLEY & R. J. FRYER

299 Scaling of digestive efficiency with body mass in *Neotoma*
F. A. SMITH

306 Responses of three saturniid species to Paper Birch grown under enriched CO_2 atmospheres
R. L. LINDROTH, G. E. ARTEEL & K. K. KINNEY

312 Structured interspecific determinants of specific leaf area in 34 species of herbaceous angiosperms
B. SHIPLEY

320 Genome size predicts frost resistance in British herbaceous plants: implications for rates of vegetation response to global warming
C. W. MACGILLIVRAY & J. P. GRIME

326 Resorption of nitrogen and dry matter prior to leaf abscission: variation among individuals, sites and years in the mountain birch
K. O. NORDELL & P. S. KARLSSON

334 Contents, uptake rates and reduction of nitrate of *Rumex palustris* and *Plantago major* spp. *major* grown on compacted soil
W. M. H. G. ENGELAAR, E. J. W. VISSER, B. W. VEEN & C. W. P. M. BLOM

Technical Report

340 Temperature effects of passive greenhouse apparatus in high-latitude climate change experiments
A. D. KENNEDY

Forum

351 Atresia as a source of variation in clutch size in *Sceloporus mucronatus*: a reappraisal of evidence presented by Méndez-de la Cruz *et al.*
C. P. CUMMINS

Volume 9 Number 3 1995

Essay Review

355 Theories of optimization, form and function in branching architecture in plants
K. D. FARNSWORTH & K. J. NIKLAS

364 Ecological determinants of body size and clutch size in amphipods: a comparative approach
R. POULIN & W. J. HAMILTON

371 Importance of topography in the selection of drinking sites by sandgrouse
P. N. FERNS & S. A. HINSLEY

376 The functional response of herbivores: analysis and test of a simple mechanistic model
T. F. GINNETT & M. W. DEMMENT

385 Feeding and chewing behaviours of Nubian ibex: compensation for sex-related differences in body size
J. E. GROSS, M. W. DEMMENT, P. U. ALKON & M. KOTZMAN

394 Leaf stable carbon isotope composition records increased water-use efficiency of C_3 plants in response to atmospheric CO_2 enrichment
D. J. BEERLING & F. I. WOODWARD

402 Variation in carbon isotope discrimination and photosynthetic gas exchange among populations of *Pseudotsuga menziesii* and *Pinus ponderosa* in different environments
J. W. ZHANG & J. D. MARSHALL

413 Shade shoot structure of conifers and the photosynthetic response to light at two CO_2 partial pressures
J. W. LEVERENZ

422 Plant life form, stomatal density and taxonomic relatedness: a reanalysis of Salisbury (1927)
C. K. KELLY & D. J. BEERLING

432 Plant populations and global environmental change: the effects of different temperature, carbon dioxide and nutrient regimes on density dependence in populations of *Vulpia ciliata*
L. G. FIRBANK, A. R. WATKINSON, L. R. NORTON & T. W. ASHENDEN

442 Symbiotic fungi determine plant community structure: changes in a lichen-rich community induced by fungicide application
K. K. NEWSHAM, A. R. WATKINSON, H. M. WEST & A. H. FITTER

448 Morphological variation between geographically disjunct populations of Atlantic salmon: the effects of ontogeny and habitat shift
A. G. NICIEZA

457 Great Tit fat reserves: effects of changing and unpredictable feeding day length
P. A. BEDNEKOFF & J. R. KREBS

463 Bats and barometric pressure: conserving limited energy and tracking insects from the roost
K. N. PAIGE

468 Sperm competition: mating system, not breeding season, affects testes size of primates
A. H. HARCOURT, A. PURVIS & L. LILES

477 Intrapopulation variability in sublethal response to heavy metal stress in sexual and asexual gastropod populations
V. E. FORBES, V. MØLLER & M. H. DEPLEDGE

485 Chorus attendance by male and female Painted Reed Frogs (*Hyperolius marmoratus*): environmental factors and selection pressures
S. P. HENZI, M. L. DYSON, S. E. PIPER, N. E. PASSMORE & P. BISHOP

492 Post-natal growth and sustained lactational effort in the Aardwolf: life-history implications
A. S. VAN JAARSVELD, P. R. K. RICHARDSON & M. D. ANDERSON

498 Repeatability of maximal aerobic performance in Belding's Ground Squirrels, *Spermophilus beldingi*
M. A. CHAPPELL, G. C. BACHMAN & J. P. ODELL

505 Fermentation and adenylate metabolism of *Hedychium coronarium* J. G. Koenig (Zingiberaceae) and *Acorus calamus* L. (Araceae) under hypoxia and anoxia
C. A. JOLY & R. BRÄNDLE

511 Compensatory responses of two *Melampyrum* species after damage
K. LEHTILÄ & K. SYRJÄNEN

518 Effect of seasonal water availability on phenology and the annual shoot carbohydrate cycle of tropical forest shrubs
D. T. TISSUE & S. J. WRIGHT

528 Stimulative effects of arthropods on endomycorrhizas of sugar maple in the presence of decaying litter
J. N. KLIRONOMOS & W. B. KENDRICK

537 Reaction norms of *Arabidopsis*. II. Response to stress and unordered environmental variation
M. PIGLIUCCI, C. D. SCHLICHTING & J. WHITTON

Forum

548 Resistance or covert infection; baculovirus studies re-examined
D. GOULSON & C. HAUXWELL

549 Covert infection or, simply, resistance?
M. BEGON & M. BOOTS

Volume 9 Number 4 1995

551 Size-related functional and energetic constraints in the foraging of the limpet *Patella vulgata* (Mollusca, Gastropoda)
G. SANTINI, G. CHELAZZI & P. DELLA SANTINA

559 The effects of prolonged fasting of the body composition and reproductive success of female Polar Bears (*Ursus maritimus*)
S. N. ATKINSON & M. A. RAMSAY

568 Periodic food availability and strategic regulation of body mass in the European Starling, *Sturnus vulgaris*
M. S. WITTER, J. P. SWADDLE & I. C. CUTHILL

575 Water relations of seedlings and adults of two fynbos *Protea* species in relation to their distribution patterns
M. B. RICHARDS, W. D. STOCK & R. M. COWLING

584 Direct demonstration of nectar reabsorption in the flowers of *Grevillea robusta* (Proteaceae)
S. W. NICOLSON

589 Light interception, nitrogen and leaf mass distribution in a multilayer plant community
O. KULL, A. AAN & T. SÕELSEPP

596 Accumulation of amino acids in forest plants in relation to ecological amplitude and nitrogen supply
M. OHLSON, A. NORDIN & T. NÄSHOLM

606 Maternal investment and developmental plasticity: functional consequences for locomotor performance of hatchling frog larvae
D. M. PARICHY & R. H. KAPLAN

618 Trade-off in allocation of metabolic reserves: effects of diapause on egg production and adult longevity in a multivotine bruchid, *Kytorhinus sharpianus*
M. ISHIHARA & M. SHIMADA

625 The functional relationship between body size and growth rate in fish
J. M. ELLIOTT & M. A. HURLEY

628 The availability of external support affects allocation patterns and morphology of herbaceous climbing plants
K. C. DEN DUBBELDEN & B. OOSTERBEEK

635 Mechanisms underlying the suppression of forb seedling emergence by grass (*Poa pratensis*) litter
J. L. BOSY & R. J. READER

640 Testing predictions of the resistance and resilience of vegetation subjected to extreme events
C. W. MACGILLIVRAY, J. P. GRIME & THE INTEGRATED SCREENING PROGRAMME (ISP) TEAM

650 Little Ice Age temperature estimated by growth and flowering differences between subfossil and extant shoots of *Cassiope tetragona*, an arctic heather
M. HAVSTRÖM, T. V. CALLAGHAN, S. JONASSON & J. SVOBODA

655 Genetic differentiation in morphological responses to simulated foliage shade between populations of *Impatiens capensis* from open and woodland sites
S. A. DUDLEY & J. SCHMITT

667 Gene by environment interaction: effects of a single gene and social environment on reproductive phenotypes of Fire Ant queens
L. KELLER & K. G. ROSS

677 Retardation of breeding onset in Great Tits (*Parus major*) by blood parasites
K. ALLANDER & G. F. BENNETT

683 Energy reserves and mating success in males of the Yellow Dung Fly, *Scathophaga stercoraria*
M. OTRONEN

689 Spatial distribution of roots in Sweetgum and Loblolly Pine monocultures and relations with above-ground biomass and soil nutrients
P. MOU, R. H. JONES, R. J. MITCHELL & B. ZUTTER

Volume 9 Number 5 1995

Essay Review

701 Costs and benefits of low intracellular osmolarity in cells of freshwater algae
J. A. RAVEN

708 The effects of ozone and cutting on the species composition of artificial grassland communities
M. R. ASHMORE & N. AINSWORTH

713 The effects of enhanced UV-B radiation on the growth of dwarf shrubs in a subarctic heathland
U. JOHANSON, C. GEHRKE, O. BJÖRN & T. V. CALLAGHAN

720 Body size, gender, seed husking and energy requirements in two species of desert gerbilline rodents, *Meriones crassus* and *Gerbillus henleyi*
I. S. KHOKLOVA, A. A. DEGEN & M. KAM

725 Genetic variation and phenotypic plasticity of pollen release and capture height in *Plantago lanceolata*
K. A. YOUNG & J. SCHMITT

734 Comparative ecotoxicity of cadmium, chorpyrifos and triphenyltin hydroxide for four clones of the parthenogenetic collembolan *Folsomia candida* in an artificial soil
T. CROMMENTUIJN, J. A. STÄB, A. DOORNEKAMP, O. ESTOPPEY & C. A. M. VAN GESTEL

743 A comparative analysis of sex ratio investment parameters in ants
J. J. BOOMSMA, L. KELLER & M. G. NIELSEN

754 The effect of seedling age on the likelihood of herbivory by the slug *Deroceras reticulatum*
M. E. HANLEY, M. FENNER & P. J. EDWARDS

760 Responses to phosphorus of contrasting successional tree-seedling species from the tropical deciduous forest of Mexico
P. HUANTE, E. RINCÓN & F. S. CHAPIN III

767 Climatic variability and grassland community composition over 10 years: separating effects on module biomass and number of modules
T. HERBEN, F. KRAHULEC, V. HADINCOVÁ & S. PECHÁČKOVÁ

774 Predation risk increases with clutch size in a copepod
J.-E. SVENSSON

778 *Daphnia* behaviour as a bioassay of fish presence or predation
G. STIRLING

785 Intraspecific variation in plumage coloration reflects immune response in Great Tit (*Parus major*) males
R. DUFVA & K. ALLANDER

790 What controls the onset of anorexia in maturing adult female Atlantic Salmon?
S. KADRI, N. B. METCALFE, F. A. HUNTINGFORD & J. E. THORPE

Volume 9 Number 6 1995

799 Dendroecological and ecophysical analysis of gap environments in mixed-oak understoreys of northern Virginia
D. A. ORWIG & M. D. ABRAMS

807 Body mass reduction during reproduction in the Pied Flycatcher *Ficedula hypoleuca*: physiological stress or adaption for lowered costs of locomotion?
L. HILLSTRÖM

818 Parallel geographic variation in body shape and reproductive life history within the Australian scincid lizard *Lampropholis delicata*
A. FORSMAN & R. SHINE

829 Predicted pollen dispersal by honey-bees and three species of bumble-bees foraging on oil-seed rape: a comparison of three models
J. E. CRESSWELL, A. P. BASSOM, S. A. BELL, S. J. COLLINS & T. B. KELLY

842 Fat reserves and health state in migrant Goldcrest *Regulus regulus*
J. MERILÄ & E. SVENSSON

849 Nutrient availability and growth rate of 34 woody species from a tropical deciduous forest in Mexico
P. HUANTE, E. RINCÓN & I. ACOSTA

859 How plants find light in patchy canopies. A comparison between wild-type and phytochrome-B-deficient mutant plants of cucumber
C. L. BALLARÉ, A. L. SCOPEL, M. L. ROUSH & S. R. RADOSEVICH

869 Fungal odour discrimination in two sympatric species of fungivorous collembolans
K. HEDLUND, G. BENGTSSON & S. RUNDGREN

876 A comparison of ratio-based and covariance analyses of a nutritional data set
S. J. BEAUPRE & A. E. DUNHAM

881 Male bushcrickets tailor spermatophores in relation to their remating intervals
L. W. SIMMONS

887 Parasite-induced gigantism in a snail: a host adaptation?
P. BALLABENI

894 Costs and benefits of foraging on grasses varying in canopy structure and resistance to defoliation
A. W. ILLIUS, I. J. GORDON, J. D. MILNE & W. WRIGHT

904 A functional analysis of New Zealand alpine vegetation: variation in canopy roughness and functional diversity in response to an experimental wind barrier
B. SMITH, A. F. MARK & J. B. WILSON

913 Influence of the hydric environment and clutch on eggs and embryos of two sympatric map turtles
F. J. JANZEN, J. C. AST & G. L. PAUKSTIS

923 UV-B-mediated changes on below-ground communities associated with the roots of *Acer saccharum*
J. N. KLIRONOMOS & M. F. ALLEN

931 Cyclic winter grazing patterns in Brent Geese and the regrowth of salt-marsh grass
J. M. ROWCLIFFE, A. R. WATKINSON, W. J. SUTHERLAND & J. A. VICKERY

942 Spatial variation in the seed ecology of a woodland herb (*Primula vulgaris*) in relation to light environment
T. VALVERDE & J. SILVERTOWN

Forum

951 A non-functional interpretation of a classical optimal-partitioning example
J. S. COLEMAN & K. D. M. MCCONNAUGHAY
